JOIN US FOR THE TRAINING OPPORTUNITY OF A LIFETIME!

13th – 24th MAY 2024, NADI, FIJI

Chief Jason Graber, USA

Chief Graber is the Deputy Chief for the Metropolitan Washington Airports Fire and Rescue Department. He was recently the Chairperson of the ARFF Working Group and has been a key figure in the ARFF service internationally.

Stephen Milton, UK

Emergency Response Driver Training (ERDT) are the world's leading ARFF driver training specialists. ERDT has provided ARFF driver and instructor training to more than 170 emergency services in 16 countries.

Trevor Rogers, Australia

With more than 39 years ARFF experience, Trevor Rogers has a wealth of knowledge and experience. He spent 10 years as Airservices Australia's senior instructor, facilitating recruit through to senior officer courses.

Peter McMahon, Australia

Peter has provided ARFF training and consultancy services to more than 20 countries. Previously Assistant Chief Fire Officer Airservices Australia, is now Managing Director of Aviation Rescue Services and long-standing Director of the ARFF Working Group (USA) and the International Aviation Fire Protection Association (IAFPA).

INTERNATIONAL ARFF TRAINING

13th – 24th MAY 2024, NADI, FIJI

Training Program:

Three courses are offered as part of this comprehensive training program. All courses are scheduled to take place concurrently during a two-week period. Students can either enrol into one course (1-week) or can enrol in any two courses of their choice (2-weeks).

RESPOND
TO AIRCRAFT
INCIDENTS

TARGET: Firefighters / Senior firefighters
DURATION: 5 Days

This rigorous course is designed in alignment with ICAO Standards to provide both theoretical and practical training that will substantially improve the expertise and capabilities of ARFF firefighters. Participants will be trained in state-of-the-art operational tactics, enabling them to efficiently handle a broad spectrum of incidents related to aircraft and airports, utilizing the most advanced equipment and vehicles.

SENIOR
AIRPORT FIRE
OFFICER

TARGET: Senior Airport Fire Officers / Commanders
DURATION: 5 Days

The internationally recognised Senior Airport Fire Officer (SAFO) course will empower Supervisors and those providing command functions during an incident with the skills and knowledge to manage teams and effectively control an incident.

A large range of topics will be covered including Legislation & Standards, Incident Command Systems, Airport Emergency Planning, Managing Mass Casualties, Incident Investigation, Task & Resource Analysis, Human Factors, Firefighter Training and much more.

EMERGENCY
RESPONSE
DRIVER
TRAINING

TARGET: Firefighters / Drivers and Supervisors
DURATION: 5 Days

The ARFF Emergency Response Driving Workshop will provide theoretical and practical knowledge and understanding to respond safely to ARFF incidents. The training is in accordance with ICAO and NFPA standards, and includes Initial skills training and maintenance of competency. The course content is internationally accredited by SFJ Awards (UK).
